RC 125 FEATURES

BODYWORK

Completely redesigned, race-inspired bodywork provides class-leading wind protection and a higher top speed thanks to optimized aerodynamics created using CFD (Computational Flow Dynamics) simulations.

FRONT FORK

Boasting a 43 mm WP Apex open cartridge, upside down front fork with revised factory settings, the KTM RC 125 not only shares proper sportsbike technology with bigger bikes, it handles like them too. New axle clamps and a hollow axle also save weight.

ENGINE

The KTM RC 125 uses the proven 15 hp, 125cc liquid cooled, single cylinder four-stroke engine to maximum effect. Revised engine mapping, improved torque figures, and smoother, hard-hitting power delivery means this state-of-the-art powerplant churns out unmatched performance.

FRAME

A new, ultra-lightweight framework saves 1.5 kg over the previous generation, making use of a trellis frame and bolt-on subframe, which also gives the KTM RC 125 improved high-speed stability and increased rider feel. The result? Faster lap times.

GRAND PRIX INSPIRED

Taking its lead from the pinnacle of 2-wheeled racing, the KTM RC 125 echoes the design of the KTM RC16 racer in both styling, ergonomics and two exciting color options.
